

Mission Scientist Report for Friday, 24 May 2013

Submitted by larrycarey on Sat, 05/25/2013 - 07:43

Date:

Saturday, May 25, 2013 - 07:30

Discussion:

Stand down during the daytime Friday for crew rest and maintenance as needed. NPOL operations will start-up again at 7 PM on Friday.

NPOL and D3R green. Working some calibration issues with NPOL to get science-based and engineering-based calibration methods to match. XPOL5 now operational with new board installed on Thursday. Working some communications issues through fire wall at Cedar Rapids XPOL. Iowa City XPOL power issue resolved on Thursday. Will work on disdrometer calibration during the day on Friday.
